### What do students say?

I came from an IT background in the military, then did a career change for pharmacy, then another career change to enter HVAC. I had no knowledge of tools or HVAC at all, but since I came into the program a few months ago I know a lot more than I did in my whole life. I enjoy the hands-on here and even the small tips I get on how to hold a certain tool correctly from the instructor and on how to use it efficiently. The instructor is really helpful, and I am grateful for the expertise and knowledge.
