Competency Based, Hands-On Job Training

Our competency-based programs sets you up for success. There are no letter grades to worry about because you master an area before moving on to the next. Most of us learn best by applying what we know and our hands-on lab time gives you the skills your future employer expects you to have. We know because they tell us.

Connections to Employers

We know the end game is to find a job with opportunity for growth. But where do you find that job after you graduate? Our programs get you ready with job preparation and job placement assistance. We have connections to employers. We know who is hiring and exactly what they want.

More than Job Training

We know there's more than one path to success. You're not a number. You're a person. Everyone at CET treats you with the respect and warmth you deserve.
