What do students say?

I attended CET in 2020 and it was a great experience overall. The instructors are great. They care about their students and have their best interests at heart.

The programs are really well built and offer hands-on training.

- Google Review

The first day I walked into CET I was so nervous but once I talked to someone they all made me feel so welcomed and made me feel like part of the Colton CET family. Made me feel I CAN make this change in going to school and bettering my life in many ways. My instructor on the PM schedule is amazing... she explains and demonstrates in a way that encourages and you learn so much. It's amazing cause you can tell she lives what she does in how she teaches. And that makes me love what I'm learning.
